OPEN-WORLD CRIME VISUAL + STORY PROMPT GENERATOR

START HERE

Your Da Crime City Takeover generator is ready. Follow this simple order to make your first 3D open-world style image.

01 OPEN THE GENERATOR

Open **Da_Crime_City_Takeover_A2_2.html** in a current web browser. You do not need to install an app.

02 CHOOSE THE LOOK

Tap **NEXT-GEN 3D GAME ART**. Confirm the **Art Finish** selector says **3D Open-World Game Artwork**.

03 BUILD ONE SCENE

Choose your character, outfit, vehicle, city, mood and camera. Use the six top shortcuts to jump to the section you need.

04 GENERATE + COPY

Run **QUALITY CHECK**, press **GENERATE**, then **COPY ALL**. Paste the prompt into ChatGPT Images, Gemini or a compatible image tool.

05 SAVE BEFORE YOU EXPAND

Use **SAVE FULL PROJECT** or **EXPORT PROJECT** to keep your choices. Build a story or video prompt after your first image looks right.

Need details? Open the included **21-page A2.2 Illustrated User Guide**. The original cover artwork is preserved. This generator creates prompts, not the images themselves.
